13:30	Lunch	Lunch
14:30	Workshops 1, 2 and 3 - Groups rotate between workshops	Workshops 4, 5 and 6 - Groups rotate between workshops
16:30	Day 1 Close	Day 2 Close

Workshop 1: Early Respiratory Management of Preterm Infants - the delivery room management of the very preterm infant focusing on early respiratory support, thermal management, delivery room cuddle and exploring the role of delayed cord clamping

Workshop 2: Reducing Term Admissions – how to minimise term admissions – preventing hypothermia, preventing and managing hypoglycaemia and mild respiratory distress without admission

Workshop 3: Preterm infant delivery room management - respiratory management once in nicu - what respiratory support when, LISA, modes of ventilation and how to maximise extubation success

Workshop 4: Term respiratory failure - how to optimise respiratory and circulatory support, when to refer for ECMO

Workshop 5: Airway Adjuncts and how to best use them - how best to use the variety of airway adjuncts we use - mask, oropharyngeal, lma and endotracheal tube

Workshop 6: Family-centred care and communication throughout the NICU journey - including the antenatal consult, delivery room cuddle, communication and family involvement in nicu
